

**PLATTE RIVER RECOVERY IMPLEMENTATION PROGRAM**  
**Procurement Policy**  
**Updated Effective July 1, 2023**

Office of the Executive Director  
Kearney, Nebraska

**I. Introduction**

This directive establishes policy regarding procurement and contracting to be applied and overseen by the Executive Director (ED) and staff in coordination with Nebraska Community Foundation (NCF). The policy is intended to provide a clearly-defined and efficient process for obtaining the goods, services, and construction required to meet the goals of the Platte River Recovery Implementation Program (Program) while maintaining appropriate oversight from the Governance Committee (GC) and Finance Committee (FC). As referenced below, it is intended to ensure sound business practice and compliance with laws and policy of the United States of America and the States of Colorado, Nebraska, and Wyoming.

**II. Authorities**

A Memorandum of Understanding among the States of Colorado, Nebraska, and Wyoming; Nebraska Community Foundation; and the Bureau of Reclamation, Department of the Interior establishes a finance management and administrative support process for NCF to assist the Program as the Financial Management Entity (FME). Funds for the Program are provided by the Department of Interior (pursuant to a cooperative agreement with NCF) and the states of Colorado and Wyoming. This policy is designed to further the purposes of each jurisdiction’s procurement laws and to comply with Title 2 C.F.R. Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

**III. Exceptions**

The Program document states that land may be acquired through a willing buyer/willing seller process with prices and terms established by negotiation. The procedures provided in this directive do not apply to land acquisition.

In addition to land, water may be acquired for Program purposes. Similar to land, the acquisition of water is to be accomplished through a negotiation process. The procedures provided in this directive do not apply to water acquisition.

Retention of special advisors to the ED of a technical or legal nature is exempt from the procurement procedures provided in this directive. Special advisors are not exempt from contracting procedures in this directive.

**IV. Full and Open Competition**

With rare exceptions, procurement of goods, services, and construction will be the result of a competitive marketplace. When goods, services, and construction are obtained in a manner other than a competitive process, a written justification for this deviation will be provided to the GC for

45 approval prior to goods, services, or construction procurements being awarded. The justification  
46 for non-competitive selection will be based on unique qualifications, special circumstances, or  
47 similar conditions.

48

49 **V. Small and Minority Businesses, Women’s Business Enterprises, and Labor Surplus**  
50 **Area Firms**

51 The Program is committed to the inclusion of small and minority businesses, women’s businesses,  
52 and labor surplus area firms in its procurement practices and will take all necessary affirmative  
53 steps to assure that such firms are used, whenever possible.

54

55 **VI. Conflict of Interest**

56 Offerors on a project will be required to address whether or not any potential conflict of interest  
57 exists between that project and any of their past or on-going projects, including any projects  
58 currently being conducted for the Program.

59

60 **VII. Suspension and Debarment**

61 Prior to entering into a contract or other agreement to procure goods or services in a covered  
62 transaction (generally, a transaction expected to equal or exceed \$25,000), assurance will be  
63 obtained that the contracting entity and its principals are not suspended or debarred from receiving  
64 federal funds. This will be done by one or more of the following processes: (1) review of the  
65 active and inactive exclusions in <https://www.sam.gov/>, (2) collecting a certification from the  
66 entity, or (3) adding a clause to the covered transaction.

67

68 **VIII. Procurement Thresholds and Procedures**

69 Procurement thresholds and general procedures are as follows. Expenditure thresholds reference  
70 the intended total expenditure amount over the duration of the procurement. For example, a  
71 procurement that is intended to cover five years at \$30,000 per year ( $\$30,000/\text{year} \times 5 \text{ years} =$   
72  $\$150,000$ ) would be subject to the procedures for purchases of \$50,000 or greater. Further  
73 procedural detail may be established by the ED.

74

75 The ED may solicit proposals for goods, services, or construction costing less than \$25,000 without  
76 FC approval if the costs of the goods and services are within the budget approved by the GC.  
77 Solicitations for proposals or bids for goods, services, or construction costing \$25,000 or more  
78 must be approved in accordance with the GC Approval Process for Procurement specified herein.

79

80 **All Thresholds:** Authorization of budgets lies with the FC and the GC as described in the  
81 Program Document and summarized subsequently in this document. Authority and  
82 responsibility for procurements contained within an authorized budget rests with the ED.  
83 Input from various Program Committees will be solicited as described below or as  
84 otherwise deemed appropriate by the ED. In addition to the monetary thresholds described  
85 below, guidance from the GC pertaining to requests in areas of particular sensitivity may  
86 result in variances from the procedures described. Personnel directly reporting to the ED  
87 are authorized to make acquisitions of less than \$10,000. Personnel so authorized may not  
88 disburse more than \$10,000 to any one entity in a single year.

130

**Less than \$10,000:**

- Need for proposed item or service is documented.
- Quotes will be acquired by phone or in writing.
- Award may be to low quote or most qualified providing the best value.

**\$10,000 or greater, but less than \$25,000:**

- Need for proposed item or service is documented.
- Requirement will be advertised on Program website for five business days.
- Quotes will be provided in writing by providers.
- Award may be to the low quote or most qualified providing the best value.

**\$25,000 or greater, but less than \$50,000:**

- Requirement is documented in detail – specifications, units, delivery schedule, level of expertise, qualifications of personnel, and other specific requirements are clearly defined.
- Requirement will be advertised on Program website for a minimum of 15 days and a maximum of 30 days, based on discretion of ED. Notice of requirements may also be advertised in regional and/or local newspapers, based on discretion of ED, for up to three days with initial publication at least two weeks prior to offer closing date.
- Quotes, bid packages, or proposals to be provided in writing as requested.
- Pre-offer meeting may be held up to one week prior to offer closing date.
- Submittals will be reviewed for determination of responsiveness and acceptability.
- In the case of proposals:
  - Offers will be reviewed and where necessary, ranked by three or more subject matter experts. The selection of the subject matter experts will be based on knowledge and expertise of the project at issue. The panel of subject matter experts will be assembled with input from the appropriate Program committees. The GC will always be solicited for input on the composition of the panel proposed.
  - An interview of the offerors with the subject matter experts and ED may or may not be required, as determined by the subject matter experts and the ED.
  - Award is to highest ranking offer where consideration may be given to fee as part of the selection process. Negotiation of scope and fee will occur subsequent to selection.
- In the case of a bid or quote:
  - A public bid opening will be held.
  - Award is to lowest cost bidder who can meet the requirements of the bid solicitation.

- 131           **\$50,000 or greater:**
- 132           • Requirement is documented in detail – specifications, units, delivery schedule,
- 133           level of expertise, qualifications of personnel, and other specific requirements are
- 134           clearly defined.
- 135           • For procurements, including contract modifications, over the Simplified
- 136           Acquisition Threshold as set forth in 41 U.S.C. Section 134 (\$250,000 as of August
- 137           31, 2020), a cost or price analysis will be performed prior to receiving bids or
- 138           proposals.
- 139           • Requirement will be advertised on Program website for a minimum of 21 days and
- 140           a maximum of 45 days, based on the discretion of the ED. Notice of requirements
- 141           will also be advertised in regional and/or local newspapers for up to three days with
- 142           initial publication at least three weeks prior to offer due date.
- 143           • Quotes, bid packages or proposals to be provided in writing as requested.
- 144           • Pre-offer meeting may be held up to two weeks prior to bids/proposals due date.
- 145           • Submittals will be reviewed for determination of responsiveness and acceptability.
- 146           • In the case of proposals:
  - 147           ○ Offers will be reviewed and where necessary, ranked by three or more
  - 148           subject matter experts using a pre-determined evaluation system. The
  - 149           selection of the subject matter experts will be based on knowledge and
  - 150           expertise of the project at issue. The panel of subject matter experts will be
  - 151           assembled with input from the appropriate Program Committees. The GC
  - 152           will always be solicited for input on the composition of the panel proposed.
  - 153           ○ An interview of the offerors by the subject matter experts and ED may be
  - 154           required, as determined by the subject matter experts and the ED.
  - 155           ○ Award is to highest ranking offer where consideration may be given to fee
  - 156           as part of the selection process. Negotiation of scope and fee will occur
  - 157           subsequent to selection.
- 158           • In the case of a bid:
  - 159           ○ Conduct a public bid/proposal opening.
  - 160           ○ Award is to lowest cost bidder who can meet the technical requirements of
  - 161           the bid solicitation.

163 **IX. Governance Committee Approval Process for Procurement**

164 A. At each GC meeting, the ED will report the goods/services/construction procurements  
 165 exceeding \$25,000 that will be sought during the interim until the next GC meeting. The report  
 166 will include the budget item under which the work will be performed and the estimated  
 167 procurement cost. If the request is in an area of particular sensitivity, guidance from the GC may  
 168 result in variances from the procedures described in terms of strictly monetary thresholds in the  
 169 policy described previously in this document. If the estimated cost exceeds the budget for the  
 170 item, the increased budget must be approved by the GC before the selection process can be  
 171 initiated. The members of the GC may offer representatives to review the requests for proposal  
 172 (RFPs) and/or serve on the selection team.

173

174 B. The ED will draft all RFPs and seek comments from the related advisory committee(s) and  
175 representatives offered by the GC members.

176  
177 C. The final drafts of the RFPs with the updated cost estimates will be submitted to the FC.

178  
179 If the RFP is for a single-year service and cost estimates do not exceed the budget for the related  
180 work item, the FC may authorize the initiation of the selection process. If the cost estimates exceed  
181 the budget for the related work item, the selection process must be delayed until the GC has the  
182 opportunity to approve or reject a budget increase.

183  
184 All RFPs proposing multi-year services must be reviewed by the FC and approved by the GC, even  
185 if the existing budget includes funds for the first year’s activities. This is necessary as multi-year  
186 contracts affect future budgets, and future budgets are the responsibility of the GC.

187  
188 D. The ED will ensure the selection process progresses as outlined previously in this Policy.  
189 For those requests requiring a selection panel, the ED will organize a selection team that includes  
190 representatives from the related advisory committee and representatives offered by the GC. The  
191 ED may chair the selection team or designate as chair:

- 192 1. a member of the ED’s staff  
193 2. a member or alternate of the GC  
194 3. the chair or vice chair of the related advisory committee, or  
195 4. any other person approved by the GC.

196  
197  
198 **X. Selection Process**

199 When Program services are sought through the RFP process, written submittals and interviews, if  
200 considered necessary, will be utilized in selecting the winning proposal. The Proposal Selection  
201 Panel will have a minimum of two weeks after the proposal submission deadline to review and  
202 rank submitted proposals in accordance with scoring guidelines developed by ED Office staff.  
203 Proposal scores will be compiled by ED Office staff and the Proposal Selection Team will then  
204 discuss the rankings to determine if interviews are necessary, and if so which contractors to  
205 interview. Interviews may be written, via conference call, or face-to-face depending on the  
206 situation. Information from the proposal, from interviews, and from internal Program discussions  
207 will be used to determine the successful contractor. Commitments made by a contractor at the  
208 interview, if any, will be considered binding.

209  
210 After completing the evaluation of all proposals and, if deemed necessary, interviews, the Proposal  
211 Selection Panel will tentatively select the contractor that is most advantageous to the Program,  
212 with price and other factors considered. A final award, however, will be contingent upon successful  
213 negotiation of a contract. If the Program is unable to negotiate a mutually satisfactory contract  
214 with its first choice, it may, at its sole discretion, negotiate with its secondary choices or cancel  
215 and reissue a new RFP.

216  
217

218 **Debriefing of Unsuccessful Contractors**

219 Contractors whose proposals have not been selected for further consideration will be notified via  
220 e-mail. Only contractors who have submitted a proposal under the criteria established by this  
221 solicitation document may protest the rejection of a proposal and request a debriefing with the ED  
222 and staff. The request for a debriefing must be received by the RFP point of contact within three  
223 (3) business days after the Notification of Unsuccessful Proposal Letter is e-mailed to the  
224 contractor. The debriefing must be held within three (3) business days of the request.

225  
226 Debriefing discussions will be limited to a critique of the contractor’s proposal. Comparisons  
227 between proposals or evaluations of the other proposals will not be allowed. The debriefing  
228 conferences may be conducted in person or on the telephone and will be scheduled for a maximum  
229 of one hour.

230

231 **Protest Procedures**

232 This procedure is available to contractors who submit a response to RFP solicitation documents  
233 and have participated in a debriefing conference. Upon completing the debriefing conference, the  
234 contractor is allowed three (3) business days to file a protest of the solicitation with the RFP point  
235 of contact. Protests may be submitted by e-mail. Contractors protesting a contractor selection must  
236 adhere to the following procedure, which constitutes the sole administrative remedy available to  
237 bidders:

238  
239 All protests must be in writing and signed by the protesting contractor’s authorized agent. The  
240 protest must state the grounds for the protest with specific facts and complete statements of the  
241 action(s) being protested. A description of the relief or corrective action being requested must also  
242 be included.

243

244 Only protests alleging one or more of the following shall be considered:

- 245 • A matter of bias, discrimination, or conflict of interest on the part of an evaluator.
- 246 • Non-compliance with procedures described in the solicitation document or with the
- 247 Program’s Procurement Policy.

248

249 Protests will be rejected for lack of merit if they only challenge an evaluator’s professional  
250 judgment on the quality of the proposal, or the Program’s assessment of its own needs or  
251 requirements.

252

253 Upon receipt of a protest, a protest review will be held. The ED will consider the record and all  
254 facts available and issue a decision within five (5) business days of receipt of protest unless  
255 additional time is required, in which case the protesting party will be notified by the Program.

256

257 The final determination of the protest shall:

- 258 • Find the protest lacking in merit and uphold the Proposal Selection Panel’s action; or
- 259 • Find only technical or harmless errors in the solicitation process and determine the Proposal
- 260 Selection Panel to be in substantial compliance and reject the protest; or
- 261 • Find merit in the protest and provide the GC options which may include:

- 262 - Correct the errors and re-evaluate all proposals; or
- 263 - Reissue the solicitation document and begin a new process; or
- 264 - Make other determinations and pursue other courses of action as appropriate.

265

266 **XI. Contracting Thresholds and Procedures**

267 A. Contract Thresholds

268 **All Thresholds:** Authorization of contracts lies with the FC and the GC as described in the  
269 Program Document and summarized subsequently in this document. If the draft contract is  
270 included in the procurement solicitation approved by the FC or GC and the contract price  
271 is within the work item budget, the ED can finalize the contract and submit it to the FME,  
272 as well as issue notice to proceed to the contractor. If the draft contract is not included in  
273 the procurement solicitation, the FC must approve the contract before it can be finalized  
274 and submitted to the FME for execution. If the contract price exceeds the work item budget,  
275 it must be approved by the GC before it can be finalized and submitted to the FME for  
276 execution.

277

278

**Less than \$10,000:**

279

280

281

282

- No written contract required.
- Acceptance of quote may be verbal or in writing, but must be documented in accordance with EDO practices.

283

**\$10,000 or greater, but less than \$25,000:**

284

285

286

287

288

289

- Written contract required.
- Contracts approved by ED.
- Goods: No standard contract; case by case.
- Professional Services: Utilize professional services contract.
- Construction: Utilize construction contract for projects less than \$25,000.

290

**\$25,000 or greater, but less than \$500,000:**

291

292

293

294

295

296

297

- Written contract required.
- Contracts approved by the FC or GC.
- Goods: No standard contract; case by case.
- Professional Services: Utilize professional services contract.
- Construction: Utilize construction contract for projects \$25,000 or greater, but less than \$500,000.

298

**\$500,000 or greater:**

299

300

301

302

303

- Written contract required.
- Contracts approved by the FC or GC.
- Professional Services: Utilize professional services contract.
- Construction: Utilize construction contract for projects \$500,000 or greater.

304 In some situations, it may be appropriate to utilize a contract template provided by a vendor,  
305 consultant, or contractor. In those situations, the contract must adhere to the requirements in  
306 Section XII below and be approved by the FC.

307  
308 **B. Contract Procedures**  
309 After selection of the consultant/contractor, the ED will prepare the draft contract including, as a  
310 minimum: general provisions, scope of work, contract amount and schedule. If the form of  
311 contract was not approved as part of the solicitation, it will be submitted to the FC for review.

312  
313 If the contract meets the standards of the Program procurement policy, the contract is for a single-  
314 year service, and the contract amount is within the budget for the work item, the FC can authorize  
315 the ED to finalize the contract and submit it to the FME for execution, as well as issue the notice  
316 to proceed to the consultant/contractor. If the contract amount exceeds the budget for the cost  
317 item, the finalization of the contract must be delayed until the GC has the opportunity to approve  
318 or reject a budget increase.

319  
320 If the contract meets the standards of the Program procurement policy, the FC can authorize the  
321 ED to finalize multi-year contracts if the RFP was approved by the GC and the proposed contract  
322 amount is within the budget for the first year’s activities.

323  
324 Multi-year contracts will specify that each year’s work activities and contract amount must be  
325 approved in writing before the consultant can proceed on that year’s assignments. In order to  
326 streamline this process, the FC can authorize the ED to issue the written notice to proceed if the  
327 budget approved by the GC for that year’s work activity is not exceeded. If revisions are needed  
328 to the budget, those revisions must be approved by the GC.

329  
330 **XII. Types of Contracts and Agreements for Procurement of Goods, Services, and**  
331 **Construction**

332 The following types of procurement formats/strategies will be employed, but they may be adjusted  
333 or modified for a specific procurement to ensure the approach is the most appropriate method to  
334 fill the need.

335  
336 **Formats:**

- 337 • **Firm Fixed Price Contract**
  - 338 ○ Lump-Sum basis – The total requirement has a fixed price for satisfactory  
339 delivery or complete performance. Progress payments can be made based on  
340 completion of predetermined deliverable milestones and percentage of contract  
341 amount for each.
  - 342 ○ Firm Fixed Price basis – Contractor provides rates for each unit of work and an  
343 estimate for the project as a whole. Progress payments are based on measured  
344 units of work that have been completed. Methods and responsibilities for  
345 measurement are specified in the contract.
  - 346 ○ Lump-sum basis preferred except when large quantities of work are involved  
347 or estimated quantities may change significantly during the project.

- Time and Materials Contract – Used when a determination is made that no other contract format is suitable; typically for labor intensive requirements where the hours needed may depend upon variables not clarified until the work has started; services are based upon direct labor hours at a specified fixed hourly rate and materials at cost (including a material handling fee). The agreement will provide for a “not to exceed” ceiling price that the contractor exceeds at its own risk. Progress payments are based on elapsed time for services rendered during the agreed upon period.

**Strategies:**

- Specific Project Contract – A contract developed for a specific project wherein the terms, conditions, scope, budget, schedule, and contract form are specified.
- Indefinite Delivery/Indefinite Quantity (ID/IQ) Term Contract – A multiple award contract for specified line items through which delivery orders can be negotiated and issued over a three-to-five-year period. There would be a guaranteed earnings level established for the contract.
- Blanket Purchase Agreement (BPA) – An agreement for specific line items with a provider who is intermittently called upon for those goods or services; terms and conditions are negotiated up front and any orders against the BPA must comply.
- Grant/Cooperative Agreement – An agreement with a non-profit or public entity which shares interest in the Program’s goals to provide services which benefit the interests of both parties. This is the only instrument where funds can be advanced prior to the work.

**Content:**

- Contracts will include and will require contractors to include in all sub-contracts, the applicable provisions described in 2 C.F.R. Part 200, Appendix II.

**XIII. Compliance with “Made in America Laws”**

All contracts which include infrastructure will comply with the Buy America provisions of the Infrastructure Investments and Jobs Act of November 15, 2021 (Public Law 117-58) which are applicable to federal financial assistance awards, and in general will incorporate Buy America preference terms and conditions stipulating that iron and steel, manufactured products, and construction materials (except cement and cementitious materials) used in the project will be produced in the United States. This preference only applies to articles, materials and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. It does apply to tools, equipment, and supplies brought to and subsequently removed from the site upon completion of the project. Nor does the preference apply to equipment and furnishings that are used at or within the project but are not an integral part of the structure or permanently affixed to the project. Full terms and conditions text is attached as Appendix A.

## Appendix A

### **BUY AMERICA DOMESTIC PROCUREMENT PREFERENCE [Public Law 117-58, Sec. 70911-70917 of IIJA]**

As required by Section 70914 of the Bipartisan Infrastructure Law (also known as the Infrastructure Investment and Jobs Act), P.L. 117-58, on or after May 14, 2022, none of the funds under a federal award that are part of Federal financial assistance program for infrastructure may be obligated for a project unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States, unless subject to an approved waiver. The requirements of this section must be included in all subawards, including all contracts and purchase orders for work or products under this program.

Recipients of an award of Federal financial assistance are hereby notified that none of the funds provided under this award may be used for a project for infrastructure unless:

1. all iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
2. all manufactured products used in the project are produced in the United States—this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
3. all construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of the structure or permanently affixed to the infrastructure project.

For further information on the Buy America preference, please visit [www.doi.gov/grants/BuyAmerica](http://www.doi.gov/grants/BuyAmerica). Additional information can also be found at the White House Made in America Office website: [www.whitehouse.gov/omb/management/made-in-america/](http://www.whitehouse.gov/omb/management/made-in-america/).

#### ***Waivers***

434 When necessary, recipients may apply for, and the Department of the Interior (DOI) may grant, a  
435 waiver from these requirements, subject to review by the Made in America Office. The DOI may  
436 waive the application of the domestic content procurement preference in any case in which it is  
437 determined that one of the below circumstances applies:

438

- 439 1. Non-availability Waiver: the types of iron, steel, manufactured products, or  
440 construction materials are not produced in the United States in sufficient and  
441 reasonably available quantities or of a satisfactory quality;
- 442 2. Unreasonable Cost Waiver: the inclusion of iron, steel, manufactured products, or  
443 construction materials produced in the United States will increase the cost of the  
444 overall project by more than 25 percent; or
- 445 3. Public Interest Waiver: applying the domestic content procurement preference would  
446 be inconsistent with the public interest.

447

448 There may be instances where an award qualifies, in whole or in part, for an existing DOI  
449 general applicability waiver as described at:

450 [www.doi.gov/grants/BuyAmerica/GeneralApplicabilityWaivers](http://www.doi.gov/grants/BuyAmerica/GeneralApplicabilityWaivers). If the specific financial  
451 assistance agreement, infrastructure project, or non-domestic materials meets the criteria of an  
452 existing general applicability waiver within the limitations defined within the waiver, the  
453 recipient is not required to request a separate waiver for non-domestic materials.

454 If a general applicability waiver does not already apply, and a recipient believes that one of the  
455 above circumstances applies to an award, a request to waive the application of the domestic  
456 content procurement preference may be submitted to the financial assistance awarding officer in  
457 writing. Waiver requests shall include the below information. The waiver shall not include any  
458 Privacy Act information, sensitive data, or proprietary information within their waiver request.  
459 Waiver requests will be posted to [www.doi.gov/grants/buyamerica](http://www.doi.gov/grants/buyamerica) and are subject to public  
460 comment periods of no less than 15 days.

461 Waiver requests will also be reviewed by the Made in America Office.

- 462 1. Type of waiver requested (non-availability, unreasonable cost, or public interest).
- 463 2. Requesting entity and Unique Entity Identifier (UEI) submitting the request.
- 464 3. Department of Interior Bureau or Office who issued the award.
- 465 4. Federal financial assistance listing name and number (reference block 2 on DOI Notice of  
466 Award)
- 467 5. Financial assistance title of project (reference block 8 on DOI Notice of Award).
- 468 6. Federal Award Identification Number (FAIN).
- 469 7. Federal funding amount (reference block 11.m. on DO Notice of Award).
- 470 8. Total cost of Infrastructure expenditures (includes federal and non-federal funds to the  
471 extent known).
- 472 9. Infrastructure project description(s) and location(s) (to the extent known).
- 473 10. List of iron or steel item(s), manufactured goods, and construction material(s) the  
474 recipient seeks to waive from Buy America requirements. Include the name, cost,  
475 countries of origin (if known), and relevant [PSC](#) or [NAICS](#) code for each.

- 476 11. A certification that the recipient made a good faith effort to solicit bids for domestic  
477 products supported by terms included in requests for proposals, contracts, and  
478 nonproprietary communications with the prime contractor.  
479 12. A statement of waiver justification, including a description of efforts made (e.g., market  
480 research, industry outreach) by the recipient, in an attempt to avoid the need for a waiver.  
481 Such a justification may cite, if applicable, the absence of any Buy America-compliant  
482 bids received in response to a solicitation.  
483 13. Anticipated impact if no waiver is issued.

484 Approved waivers will be posted at [www.doi.gov/grants/BuyAmerica/ApprovedWaivers](http://www.doi.gov/grants/BuyAmerica/ApprovedWaivers);  
485 recipients requesting a waiver will be notified of their waiver request determination by an  
486 awarding officer.

487  
488 Questions pertaining to waivers should be directed to the financial assistance awarding officer.  
489

490 ***Definitions***

491 “Construction materials” includes an article, material, or supply that is or consists primarily of:

- 492 • non-ferrous metals;  
493 • plastic and polymer-based products (including polyvinylchloride, composite building  
494 materials, and polymers used in fiber optic cables);  
495 • glass (including optic glass);  
496 • lumber; or  
497 • drywall.

498 “Construction Materials” does **not** include cement and cementitious materials, aggregates such  
499 as stone, sand, or gravel, or aggregate binding agents or additives.  
500

501 “Domestic content procurement preference” means all iron and steel used in the project are  
502 produced in the United States; the manufactured products used in the project are produced in the  
503 United States; or the construction materials used in the project are produced in the United States.  
504

505 “Infrastructure” includes, at a minimum, the structures, facilities, and equipment for, in the  
506 United States, roads, highways, and bridges; public transportation; dams, ports, harbors, and  
507 other maritime facilities; intercity passenger and freight railroads; freight and intermodal  
508 facilities; airports; water systems, including drinking water and wastewater systems; electrical  
509 transmission facilities and systems; utilities; broadband infrastructure; and buildings and real  
510 property. Infrastructure includes facilities that generate, transport, and distribute energy.

511 “Project” means the construction, alteration, maintenance, or repair of infrastructure in the  
512 United States.
